CREAM OF NEWS.

IT IS NEW AND TRUE THIS COLUMN HAS IT.

Two More Suicides—Drowned—Sudden Deaths—Leg Broken—Mysterious Disappearance.

A Democratic Postmaster.

Four postmasters for Kentucky were named Tuesday. One of them was T. D. Watts, at Kennedy, Christian county, a Democrat who was appointed because there was no white Republican competent to fill the place.

Baptist General Association.

The General Association of Baptist, is in session at Georgetown this week. Rev. C. H. Nash, Dr. Edmund Harrison, Rev. J. M. Bow, of Pembroke, and Rev. L. H. Strother, of Cadiz, are in attendance from this vicinity.

Nothing Doing in Court.

Things have been at a standstill in circuit court since the last report. Only a few minor matters of no general interest have been disposed of. Next week the commonwealth cases will be resumed, the Clifton Garrett case being on the docket for Monday.

Sunday School Picnic.

On Tuesday the Sunday schools of the Christian church, from the towns of Morganfield, Henderson, Princeton, and other places along the line of the O. V., spent the day at Cerean Springs picnicking. It took six coaches to carry the merry makers, there being about 600 people in all.

A Young Miner Drowned.

A young negro named George Yates, about 21 years of age, was drowned in a pond at Empire Tuesday night. He had been at work all day in the mines and came out hot and wet with perspiration and went into the water to bathe. He was taken with cramps while beyond his depth, and was drowned before assistance could reach him.

Suicide in North Todd.

James Wilkins, a well-known old citizen near Allegree, was found hanging dead to a tier-pole in his barn at an early hour Tuesday morning.

Mr. Wilkins retired about 10 o'clock Monday night and nothing was known of him until found dead as above mentioned at 4 o'clock Tuesday morning, when the family went out to feed.

Deceased was about 70 years old and had been in bad health for a number of years.

Public Schools Out To Day.

At the Tabernacle last night the closing exercises of the Public schools were held and a very large crowd was present.

Some of the little children gave songs, drills and other exercises and there were recitations and declamations by the larger pupils. Diplomats were awarded to three young men and eight young ladies, graduates from the high school department. The formal closing of the schools will take place at the buildings to-day, when promotion cards will be given and the session brought to an end.

Faculty Row at Bethel.

The faculty of Bethel College, at Russellville, has been reorganized and a general row kicked up by the Board of Trustees. Three of the most popular professors, who have long been connected with the school, have been discharged—Prof. Fuqua, Fruit and Shields. The faculty as agreed upon are Prof. George Swann, Prof. H. L. Trimble, Prof. S. E. Bradshaw, Prof. J. L. Beeson, Prof. Arthur Ramer, Prof. W. E. Farrar, and Prof. A. F. Williams.

As a result of the disruption a rival school will be started in Russellville, with Prof. Fuqua at its head.

Broke His Leg By A Fall.

Victor Armistead, aged 13, the youngest son of Dr. J. R. Armistead, fell from a tree in Dr. Blakey's yard Tuesday evening about 8 o'clock and broke his left leg in three places near the hip joint. In addition he lacerated his right leg below the knee by falling on the sharp point of a picket of the fence under the tree. He fell on the fence with such force that the picket was torn off. His escape from a fatal accident was almost miraculous. He was one of about a dozen small boys who were playing in the street at the corner of Main and Eighteenth streets, and climbed up into the tree to hide from his companions. Several of the neighbors saw the boy fall and ran to his assistance and he was placed on a plank and taken to his home one square away. Drs. Blakey, Stites and Thomas were called in and the broken leg was set and the flesh wound dressed. The wound will not prove dangerous, but will keep the little fellow in bed for the better part of the summer. He was a pupil in the eighth grade at the public school.

A SUDDEN GALL.

Mr. John C. Cary Dies of a Paralytic Stroke.

Mr. John C. Cary, recently of this city, died very suddenly yesterday morning at the Phoenix Hotel of paralysis.

Mr. Cary was 59 years of age and until a few months ago lived at Princeton, Kentucky. In the early part of the present year he moved to this city with his wife, and they boarded with Mrs. Matilda Wallace, at 122 East Sixteenth street.

On Wednesday morning he went to Nashville to make some arrangements about handling wheat in this city, and returned at 7:40 p. m. He started home from down in the city about 8 o'clock, going out Clay street. This was the last seen of him until he was found about three o'clock by a colored man lying near the corner of Clay and Fourteenth streets. He was paralyzed from his waist down and was entirely helpless. He was able to explain that he had been stricken while on his way home and had remained on the ground from about 8 o'clock till 3 o'clock a. m., when found. His cries for help were heard during the night, but were not understood by the neighbors, and no one went out to investigate. When found, Mr. Cary told where he boarded but said there was sickness in the family and it was best to take him somewhere. Accordingly taken to the Phoenix Hotel and medical assistance summoned. He lived only a few moments after reaching the hotel. His body was then taken to an undertaking establishment and his wife notified. The body was embalmed and will be taken to Princeton for interment this morning.

Mr. Cary had been twice married. A son by his first marriage lives at Knoxville, Tenn. His second wife, the present Mrs. Cary, was Miss Lela Leavelle, of this city, a daughter of the late Lewis L. Leavelle.

A PRETTY WEDDING.

Mr. J. Nick Thomas and Miss Annie Gaines Exchange Their Vows.

Mr. J. Nick Thomas, the popular book-keeper at Forbes & Bro's., and Miss Annie Gaines, a pretty and petite South Main street belle, surprised their friends last evening by quietly entering into the matrimonial state at the residence of the bride's sister, Mrs. Clarence Blakemore.

The young couple have been sweethearts for some time, but only a few of their most intimate friends knew that their marriage was to come off so soon.

At 5 o'clock there was a wedding dinner at which only a few couples of young people were present. These were Messrs. Fannie Wash, Lillian Beach and Gertrude Bramham, and Messrs. Geo. W. Phelps, J. P. Thomas and R. Warner Thomas. Early in the evening a few others came in and at eight o'clock Rev. W. Nourse, of the Presbyterian church, performed the ceremony in the prettily decorated parlor.

The bride is a pronounced brunette, with a slight, graceful figure, bright black eyes and a sweet face. She is quite young, being just out of school. She has been a very popular belle in the younger social set since she entered society a year or two ago. Mr. Thomas is a young man of fine character and excellent standing as a business man. He came to this city from Marion a few years ago and held a responsible position with the largest business establishment in the city for two or more years.

They will board at Mrs. Blakemore's.

Russell Case Continued.

The case of the commonwealth vs. Jas. D. Russell, charged with murder, was called at Princeton Monday, and continued at the instance of the commonwealth. Russell is charged with having participated in the Hovton mobbing. He was at large for some time, but was finally captured in Todd county. The feeling against Russell in Caldwell, was so bitter that the authorities had him brought here for safe keeping and he was carried to Princeton Monday morning. Bail has been refused and it is likely that the prisoner will be brought here again to await his trial at the next term of the Caldwell circuit court. Russell's mother, his wife and little child and a brother, accompanied him from here to Princeton, but returned to their homes the next day.

First Game of the Season.

The first game of ball of the season will be played this afternoon at Athletic Park between our local team, just recently organized, and the Madisonville club. Our home boys are in good prices and the visiting boys are said to be in first class trim and a fine game may be expected. The local battery is composed of Messrs. Pell and Smith. The usual admission will be charged on the occasion of today's game, but ladies will be admitted free. The game will be called at 3:30.

DISAPPEARED.

WHERE IS DIXIE WILSON OF HOPKINSVILLE?

The Well Known Drummer Has Not Been Heard From For Three Weeks.

Mr. A. L. Wilson, better known as Dixie Wilson, has mysteriously disappeared and nothing has been heard from him since the first of June.

He is a drummer for a well known whiskey house of Louisville and has been for a number of years. He has always lived here and has a wife and several children. Mrs. Wilson has heard nothing from him this month and is very uneasy about him and letters of inquiry have been received from his house, from which it is learned that he has not communicated with the house for three weeks.

Mr. Wilson's territory is in the States of Kentucky, Indiana and Tennessee and his disappearance is utterly inexplicable.

He was a trusted employe of his house, his domestic relations were pleasant, he had friends wherever he went and no reason can be given for his failure to return home or to report to his employers.

Mr. Wilson is a very large portly man, about 35 years of age, beardless except a slight moustache and is a pleasant, companionable young man, very popular on the road.

A reporter of the Kentuckian saw his father-in-law, Mr. J. T. Savage, yesterday afternoon and he had still not been heard from and Mr. Savage said that his family knew of no possible reason for his disappearance.

MUCHLY MARRIED.

A Young Woman of 23 Takes Her Third Husband.

A young lady who was married near Cadiz a few days ago has a record for marrying that is hard to beat. Though now only 23 years old, she has been married to three men, all of whom are now living.

Her maiden name was Miss Fannie Vowell and when 15 years old she was married to a man named Mason, from whom she was divorced. Mason married another wife and she herself in turn was married to a husband number two, whose name was Wilkey. The second venture proved no more successful than the first and after a time she was again divorced. Wilkey has taken a second wife and now Miss Fannie Vowell became Mrs. Fred Trecheb. Her third husband was a young grass widower about 30 years of age. She has had no children.

Three men who have been her husbands are still living and each of the three has been twice married and all of their several wives and ex-wives are still living. It has required three divorces and six marriage ceremonies to bring about these matrimonial complications.

A DELUGE IN LYON COUNTY.

Heavy Damage Done to Property and Crops By Rain and Hail.

Eldysville, Ky., June 15.—Eldysville and a large part of Lyon county were visited last night by the heaviest rainfall that has ever deluged this section within the memory of the oldest citizens. The storm began to gather about 7:30 p. m., and for an hour or more there was a display of electrical protuberances, accompanied by some heavy squalls of wind, such as is not often equaled. The rain began just before 9 p. m., and for an hour and a half it fell in such force as this county never witnessed before. Whole fields of corn and tobacco were washed up, and the vicinity of Saratoga postoffice fences, barns, stables and everything else movable in the path way of the rushing torrents were washed away; hogs, sheep and barn yard fowls were drowned, and in several instances human life was seriously endangered. The damage to the county has been quite large. In the Glens Chapel neighborhood had fell to the depth of several inches, the stones being very large and doing great damage to fruit and growing crops.

Shipped to Dover.

Lafayette, Ky., June 14.—Mr. H. D. Brame, one of Lafayette's most popular young men, and Miss Lizzie Brame, one of the most attractive and highly accomplished young ladies of the Roaring Springs neighborhood, bled themselves to Dover last Monday, the 7th, and were married, much to the surprise of their many friends, as but very few of their most intimate friends knew that they contemplated such a "leap in the dark." There was no special objection.

They have engaged board at Mr. J. W. Griffin's and will be "at home" to their friends after the 16th inst.

"Brocho" has endorsed J. D. Martin, for postmaster at Madisonville.

NATURE'S LESSON

The pink apple blossom is just out of reach,
Though you stand on the tips of your
toes—
A lesson has nature she wishes to teach—
You will learn it before autumn goes.
Strive not for the blossom, nor weep at de-
feat.
But patiently wait for awhile—
All things come in time—and the moments are
few—
Soon your frown will give place to a smile.
The blossoms will die, but the good fruit will
grow,
It will ripen in sun and in rain,
The weight of the apple will bend the bough low—
And the waiting will be to your gain.
Seek not the bright buds that will fade in
June—
But await the sweet fruit God will send—
The buds may be high and be out of your
reach—
While the boughs at the harvest will bend.

drew from the race for the Democrat-
ic nomination for Mayor of Louisville
Monday, leaving Chas. P. Weaver
the only candidate. The Times and
Post may support Weaver and there
is some danger that the Courier Jour-
nal will do the same thing. In spite
of these handicaps the nominee is
going to be elected and the indica-
tions are that Louisville is going to
be redeemed all along the line.The first steps towards the formal
annexation of the Sandwich Islands
to the United States as the Territory
of Hawaii, were taken at Washington
on the 16th inst. The proposed
treaty of annexation was signed by
three Hawaiian commissioners and
the officials of the state department.The treaty provides that the Gov-
ernment of the Hawaiian Islands cede
to the United States absolutely and
forever all rights of sovereignty in
and over the Hawaiian Islands and
its dependencies, and that these
islands shall become an integral part
of the territory of the United States.
The Government of Hawaii also
cedes to the United States all public
lands, public buildings and public
property of every description. Con-
gress shall enact special laws to gov-
ern the disposition of the lands in the
Hawaiian Islands. All revenue from
these lands shall be used solely for
the benefit of the inhabitants of the
Hawaiian Islands for educational and
other public purposes. The Hawaiian
Union as a Territory of the United
States, local laws to be passed by a
local Legislature, but subject to the
approval of the President. Until
Congress shall apply the laws of the
United States to the Islands, the
present laws of Hawaii are to govern
the islands.The present treaties and laws gov-
erning Hawaii's commercial relations
with foreign nations shall remain in
force until Congress shall take action.
Further immigration of Chinese la-
borers is prohibiting pending Con-
gressional action, and the entry of
Chinese from Hawaii into the United
States likewise is prohibited. The
United States assumes the public
debt of Hawaii, but with a stipula-
tion that this liability shall not ex-
ceed \$4,000,000. The treaty, before
it becomes effective, shall be ratified
by the proper authorities of the
United States of Hawaii.In the course of the chaplain's open-
ing prayer to the Senate Tuesday he
invoked: "Open the doors of well re-
quired toil to the unemployed and
bring the long expected prosperity to
every household."Prosperity cannot be restored by
prayer. The Creator is doing his
part well. Bountiful harvests and
freedom from war and pestilence are
blessings that have been vouchsafed
to the country, but the machinations
and selfishness of Dives have placed
cruel burdens upon the people and
driven prosperity from the land.
The good chaplain should not lay the
crime at God's door. Rather let him
pray the Almighty to change the
hearts of those who are grinding into
the earth an unhappy people.The banks of the State that
have been paying less than half
the taxes that other people
pay, have grown defiant since
the courts have decided some
points against them and have now
notified the Auditor that they will
not pay any more taxes at all while
litigation is pending. As the bank
cases now in the courts have been
there for six years and may be un-
settled six years from now, the tax
collectors should take some steps to
show the banks that they do not own
the State.It is now believed that Col. Chas.
D. Jacob withdrew from the race for
the Democratic nomination for Mayor
of Louisville because he realized that
Weaver would beat him in the pri-
mary next Tuesday, and that he in-
tends to run as an independent can-
didate in November.It requires 60 votes in the Senate to
ratify the Hawaiian treaty. Fifty-
five Senators are outspoken and
others are in doubt. It looks like the
treaty would go through and some
how or other we can't help but be in
favor of it.There is more Catarrh in this sec-
tion of the country than all other
diseases put together, and until the
last few years it was supposed to be
incurable. For a great many years
doctors pronounced it a local disease,
and prescribed local remedies, and
by constantly failing to cure with lo-
cal treatment, pronounced it incur-
able. Science has proved catarrh to
be a constitutional disease, and there-
fore requires constitutional treatment.
Hall's Catarrh Cure, manufactured

darkey, which resulted in a victory
for the bimetalist by a vote of 112

ing the fever. Unless the General

be enough goldbugs left for seed.The row among the Republican
officials at the Eddyville penitentiary
is still unsettled. Caulfield, the clerk
ousted by the anti Bradley commis-
sioners, refuses to give up the books
to Tinsley, his successor, and has
changed the combination on the safe.
Warden Happy in turn has locked
Caulfield out of the office and Tinsley

veloped by the reports of both fac-
tions, is to be ventilated in the courts.The Cincinnati Enquirer compares

Press Boys at Nashville.

The influx of press people will be
quite heavy during the next two
weeks. The Tennessee Press Asso-
ciation is already here and will be
here to-day and to-morrow. The
Kentucky Press Association comes
next Monday with 300 in party. The
Association meets at Louisville to-
morrow and will come to Nashville
via Middleborough, Ky., Knoxville
and Chattanooga, arriving Monday at
noon. On the same day the Missouri
Press Association with about 100 in
the party will arrive in town. Both
the Kentucky and the Missouri Asso-
ciations will stay three days, swelling
the multitude which will be present
next week during the Confederate
reunion.Another Press Association coming
this month is the Mississippi Press
Association. It is booked to arrive
for a two-days' visit on the 24th. How
many will be in the party is not yet
known.—Monday's American.

A Venturesome Boy Gets Hurt.

A sad and perhaps a fatal accident
happened on the Sunday school ex-
cursion to Cerulean Springs yester-
day. Roy Baker, the young son of
W. K. Baker, of Corydon, was knock-
ed from the train by coming in con-
tact with a cattle guard, receiving in-
juries in the hip and head, the latter
of a very serious nature.Baker was one of several boys who
persisted in swinging on the steps of
the back platform after being repeated-
ly warned of their danger by Conduc-
tor Colmesnell. The train ran five
miles before Baker's friends could
find the conductor in the crowded
train. The train was then backed to
where the wounded boy lay, and he
was picked up and taken to his home,
receiving medical attention on the
train.

The Confederate Special.

The L. & N. railroad will run a
special train for the accommodation of
those attending the Centennial re-
union at Nashville on next Tuesday,
the 22nd. The train will connect with
a special on the O. V., which will ar-
rive about seven o'clock. The L. &
N. special will be made up here and
leave at 8:45, on Tuesday, arriving
in Nashville at 11 o'clock. The round
trip fare will be \$1.45, or one cent per
mile each way. Stages will be made
only at Pensborne and Trenton to
take on passengers.The one third rate given also ap-
plies to the 21st, 23rd, and 24th, and
tickets will be good returning five
days from day of sale. It is estimated
that about 600 old veterans and their
friends will leave here on Tuesday.
This will include brigades from Crit-
tenden, Caldwell, Hopkins, Trigg,
Union, Lyon and Christian counties.

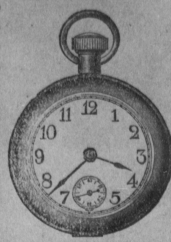

Begin To Use Cobalt.

Cobalt kills tobacco flies. Tobacco
flies lay eggs. Eggs hatch worms.
Worms destroy the tobacco crop.
Therefore begin right now to kill the
flies. Get some cobalt and put it in
the jimson weed blossoms and you
will be surprised at the number of
dead flies you will find. If all the
farmers will adopt the same method to
kill the flies there will be a big
shortage in the worm crop of 1897.
Cobalt is cheap. Try it one time and
study the results.

A Young Lady Hurt.

Mr. Frank K. Yost and his sister,
Miss Ella Yost, were out here on
East Seventh street about dusk Wed-
nesday evening and the horse ran
away. Mr. Yost had succeeded in
almost stopping the frightened ani-
mal when he gave a sudden lurch,
throwing Miss Yost out of the buggy.
She had a hard fall, severely injuring
her back and hip. She is confined to
her bed and her injuries while not
dangerous are very painful.
The horse was stopped without
any further damage being done.

Acting Governor Worthington has commuted the death sentences of Ellard Rainey to life imprisonment. Rainey was to have been hanged Tuesday at Winchester.

The Hermann Lumber Company's mammoth saw mills at Beattyville shut down throwing 100 men out of employment. Pull times and poor demand caused the suspension.

Judge James Harlan, a brother of Justice John M. Harlan, of the Supreme Court of the United States, was struck by a train on the Louisville, Henderson and St. Louis railroad and instantly killed.

Barney Barnato, the South African speculator, whose rapid climb to fortune, made him a conspicuous figure in London, was drowned from the steamship Scot. One report says that he jumped overboard, another that it was accidental.

Senator Pettigrew's anti-trust amendment to the Tariff Bill was tabled. He immediately offered another of the same character, providing that none of the increased rates should apply to articles controlled by trusts.

Commissioners of the Eastern Kentucky Lunatic Asylum at Lexington have authorized a mandamus suit against the State Board of Sinking Fund Commissioners to compel the immediate issue of the \$20,000 of bonds authorized at the recent session of the Legislature for the benefit of the asylum.

A Partial Ticket Only.

The Republican committee of Trigg county met in convention Monday and made the following nominations for county officers: Sheriff, J. S. Luten; jailer, Thos. Ladd; attorney, Luther Sanders; assessor, Rev. T. T. Pierce; supt. of schools, Mrs. Jno. Q. Thomas; representative, M. M. Hasbary. No nominations were made for the other offices, insuring the election without a contest of Jno. D. Shaw for county judge, Arthur Barrett circuit clerk and Felix K. Grasty county clerk, the Democratic nominees. All of the other Democratic nominees will easily defeat their Republican opponents, as the fusion between Democrats and Populists is complete and harmonious.

Died the Same Night.

Owensboro, Ky., June 15.—Fourteen miles from this city there died last evening Samuel Allen, aged 82, at 5 p. m., and his wife the same age at 11 p. m. They had been married 55 years, and a more peaceful couple, it is said, there could not be. They came from Nelson county years ago, and will be buried to-morrow in the same grave, but in separate coffins, just alike. Two years ago the man fell from a wagon and broke his leg, and last winter the wife fell and broke her hip. Declining health and this accident came to both after a life of good health. Both were Methodists.

Eloped With a Boy.

Dickson June 16.—A commotion was created here when it developed that Russell, the 14-year-old son of Esquire John Alexander, of Ky., had eloped with Miss Minnie McKnight, aged 25 years, daughter of John McKnight, also of this city, going to Charlotte, where they were hurriedly married by Rev. B. C. Struggs.

Young Girl suicides.

Greenville, Ky., June 16.—Miss Mamie Mount, a very popular young woman, daughter of Thomas Mount, who resided at Hillside, about three miles from this place, committed suicide last night by shooting herself with a pistol.

W. S. Withers, a wealthy citizen of Lincoln county, is dead.

WANTED HIM HIMSELF.

Here is Romance to Real Life That Takes The Cake.

Greenup, Ky., June 15.—In the White Oak neighborhood, in the eastern end of this county, Mrs. Martha Berry, aged about 40, and her pretty daughter, Matilda, who has just entered her 18th year, have lived for several years in the same neighborhood. When John Witty, a prosperous young farmer of 30 and a widower, Witty's daughter for six months. Mrs. Berry's daughter for six months. She died of the widow for the hand of her daughter to no purpose, and the young people were on an elopement.

The watchful mother discovered what was on foot and on Friday night, the time set for the elopement, she went to her daughter's room shortly after dark and bound the girl hand and foot. She also tied a gag in her mouth and took her to her own room and tied her to the bed.

She then returned to the daughter's room, and when Witty came to steal away his love the widow answered the summons, and without speaking a word joined the young man in the yard. He assisted her into his buggy and drove with her to Grayson, the county seat of Carter county, where he had arranged with Judge Morris to perform the ceremony. It was not until after the ceremony was performed on the Judge's front porch and they repaired to a hotel that the bridegroom discovered that he had married a widow.

He decided at once to make the best of the situation. He took his wedded wife home and to a neighbor he said that although he thought he was dead in love with Matilda, he always did think a great deal of her handsome mother. Matilda was discovered bound in her mother's room by a neighbor the next morning, and when she learned of the trick her mother had played her she said that although she thought she loved Mr. Witty she now was satisfied that she did not. She promised to be a dutiful daughter to him.

She Came Back.

Mrs. Minnie Carlin, who created such a sensation a few weeks ago by deserting her home and husband and running away with a young farm hand named George Shepherd, returned home this morning. She came home on the 4 o'clock Texas train from Malden, Mo., where she was with a cousin over since she left home. When she alighted from the train she was greeted by young Shepherd, who it will be remembered, came back two weeks ago.

Mr. Carlin, the deserted husband, is in Louisville with a sister, and will probably remain there as long as he lives, which may not be very long, as he has consumption.—Owensboro Enquirer.

After Many Long Years.

Princeton, Ky., June 14.—Moses Hobby killed Lee Holman forty-five years ago. No action was taken until Saturday, when the grand jury indicted him for murder. He was arrested and lodged in jail last night and his trial is set for Friday next. Both parties are negroes. The principal witnesses to the affair are still living. Holman was murdered on account of illicit relations between Hobby and his wife.

Banker Won't Pay Their Taxes.

Frankfort, Ky., June 16.—Auditor Stone has received notice from the banks that pending the decision of the tax question by the Federal courts, they will not this year as usual pay the 75 cents tax, which they have been paying about July 1 each year, and which amounts to about \$275,000.

City Officials For Princeton.

The municipal primary to nominate a Democratic ticket in Princeton was held Monday and the following parties were successful: Mayor, Eph Outton; police judge, R. B. Pearey; councilmen, F. H. King, Shelby Eldred, L. B. Rucker, S. Holze, T. J. Johnson and S. W. Baker.

Tom Major at Right.

Speaking of the recent troubles of the Major Warehouse at Louisville, the Western Tobacco Journal says:

"Many expressions of sympathy were made, both by warehousemen and buyers, for Mr. Tom P. Major, whose trouble was as it is well known that his duties were principally outside of the office and books of the firm, and that he was entirely ignorant of any irregularities."

The best evidence as to how he stands in the business community is the fact that he has arranged with a gentleman well known in Louisville to form an entirely new firm with fresh and larger capital to continue the business of warehousemen at the old stand, which will be gratifying news to the trade at large and by all who know Mr. Major personally."

Mail Robbery at Clarksville.

Clarksville, Tenn., June 16.—A mail package, containing \$63 for the Government depository in Nashville, and a registered package, containing an unknown amount of cash, were taken from a mail sack at Cumberland City, a few miles below here, last night by unknown persons, who took the sack open while it was in the station awaiting the arrival of the south bound mail train. There is no clew to the robbers.

W. S. Withers, a wealthy citizen of Lincoln county, is dead.

A Tip to Our Friends.

Persons from this section who expect to attend the great Tennessee Centennial, at Nashville, should by all means get off the train at College street depot. Luck's famous hotel is located at this point. Separate dining rooms for ladies. Lunch counter attached, where cup of coffee and sandwich will be served for 16 cents. Only one block away you can take a Line street car direct to Centennial grounds. Two blocks off is the central transfer station. This enables you to get seats in cars before the up town crowds are reached. Remember this and you will save money and enjoy greater comfort to and from the grounds.

TWO INVENTIONS.

Inventive Turn of Mind of the Washington Monument Keeper.

The keeper of the Washington monument has an original turn of mind, as developed by the fact that he has already secured a patent for a garden and lawn sprinkler, and has also filed an application in the interior department to be granted a patent for a plow which he is the inventor, the plow being the more important of the two inventions, says the Baltimore American.

The sprinkler, it may be said, seems to be a very useful invention, the spray being so constructed as to avoid the deluge of water which comes from most sprinklers, the water being made to descend in separate drops, like rain. The device consists of a copper nozzle (which can be attached to ordinary garden hose) about five inches in length, the mouth of the nozzle being so compressed as to form a fine sheet—not a stream—of water, and which divides itself into drops as it comes from the thin slot by an interior perforated arrangement. The slot can, by compression of the hand alone, be almost entirely closed; then, if larger drops are needed the slot can be widened by the blow of a knife.

As stated, the plow is the more important of the two inventions, and combines a plow and a four-wheeled truck or wagon, the plow being mounted on the running gear in going to or from the field. In the hind truck, which also has a tool or seed box, is detached, and the plow attached to the forward truck; the tongue of the plow fits into the upper axle beam of this truck directly in the center, and is kept in place by a peg which passes through the tongue, and around which peg passes a "half-moon" iron band, with a slight chain at each end, secured to the axle. This chain and band can be shortened or lengthened at pleasure by removing the peg from one hole to another in the plow beam, with the result that the plowshare cuts a shallow or deep furrow, as may be directed, and without the plowman directing any attention thereto, once the plow beam is set. For instance, when the beam is shortened up a shallow furrow is the result; lengthened out one hole, a trifle deeper furrow, and so on.

The plow beam being rigid, or nearly so, does not deviate to the right or left, but follows straight after the center of the forward truck, and after the horse also, the plowshare cutting a smooth, even and clean furrow. The width of the two-wheeled truck is regulated also so that the right-hand wheel travels in the furrow previously cut, thus assisting materially a straight course; and, in order that the truck may be set as near square as possible, the furrow wheel is devised to be somewhat larger than the left wheel, which travels on the unfurrowed surface.

THE TRADE IN FURS.

Immense Proportions It Has Attained in the United States.

The exports of American furs, obtained chiefly in Alaska, amount to \$4,000,000 a year, and nearly 70 per cent. of them are sent to England. The importations of foreign furs or manufactured articles into which furs enter as the chief material amount in a year to \$10,000,000, or more than twice as much as the exports. The American trade in furs has been largely stimulated by the yields of Alaska. From 1870 to 1890 the Alaska Commercial company paid to the United States \$20,000 a year and \$2 for each seal taken for the sole privilege of taking seals in Alaska. The sealskins, in casks holding from 200 to 300 each, are shipped through San Francisco and New York to London. From 1868 to 1890, 2,412,000 sealskins from Alaska were sold in London.

The average annual collection of furs on United States territory is as follows: Badger, 5,000 skins; bear, 15,000; beaver, 200,000; buffalo, 10,000; no account; fisher, 15,000; fox, all kinds, 150,000; marten, 130,000; mink, 250,000; muskrat, 3,000,000; opossum, 200,000; raccoon, 500,000; sea otter, 2,000; skunk, 550,000. In 1890 there were 484 fur establishments in the nation, of which 281 were in New York, and though there has been a decline in late years in the popularity of some fur garments in consequence of the mildness of the winter seasons, the business in American furs of the cheaper grade is on the increase, and a proof of this is found in the fact that while the exports of furs from this country were large in 1896 than in the year preceding, the importations of fur goods declined.—N. Y. Sun.

The Masons will give a celebration at Farmers June 24.

Centuries ago, people used to fear what they called the pestilence, "Black Death" was the most terrible thing in the world to them. They feared it as people now fear Cholera and Yellow Fever. And yet there is a thing that causes more misery and more deaths than any of these. It is so common that nine-tenths of all the sickness in the world is traceable to it. It is merely that simple thing constipation. It makes people listless, causes dizziness, headaches, loss of appetite, loss of sleep, foul breath and distress after eating. The little help needed is furnished by Dr. Pierce's Pleasant Pellets. One pill is a gentle laxative and two a mild cathartic. Once used, always in favor. If you are careless enough to let an unscrupulous druggist sell you something on which he makes more money, it is your own fault if you don't get well. Be sure and get Dr. Pierce's Pleasant Pellets.

SCIENTISTS DISAGREE.

Prof. Von Schoen's Theory of Life in Crystals.

Prof. Kemp, of Columbia university, does not agree with Prof. von Schoen's theory of life in crystals. Americans have learned of the theory through Prof. von Holst, of the Chicago university. According to Dr. von Holst, Prof. von Schoen, who is now 60 years of age, has devoted half of his life to the working out of this theory. The discovery was made by bringing the most powerful magnifying glasses to bear upon the crystals. Thousands of photographs showing the different stages of development and the ultimate results have been taken. The course of the young crystal from the time of its birth until it grows away from the mother and becomes a complete and separate body is pictured in these photographs. The young crystal meets and fights another from a different mother, the battle resulting in the death of the weaker crystal. Crystals from the same mother never fight. According to Dr. von Holst, the views of von Schoen have been carefully studied by Spencer and others, who are greatly impressed with the wide importance of the discovery. Dr. von Holst further urges that in the cause of science \$500,000 be raised and devoted to the pursuit of the discovery.

Prof. Kemp, of Columbia university, however, stated to the New York Commercial Advertiser that the idea had been advanced before, but merely in a poetical vein, and that this was practically the first attempt to bring it into the realm of cold science. In regard to von Schoen's expansion of the crystals he said:

"Crystals do grow in solutions of various salts, and when two of them meet they interfere with each other, and mutually prevent each other's perfect development. Probably this is the meaning that the remarks of the professor are intended to convey. But innumerable crystals are found at temperatures far above those at which life can exist, so far as we know, as, for instance, in slags and lavas, at over 2,000 degrees Fahrenheit. Life ceases below the boiling point of water. While the border line is a difficult thing to draw between inorganic and organic phenomena, especially in low forms of life, and while some rocks are punctured through the agency of life, the greater number have no necessary connection with it."

SHE WAS A TEACHER.

She Wouldn't Take a Seat, But She Sat Down.

The cable car was crowded, mostly by men, and when the large and determined man entered the car they did not all arise to offer her a seat. In fact no one did, whereat she flushed an angry red, and reaching up, caught hold of a strap with a vicious clutch.

This was too much for a meek-looking young gentleman, and he arose and, touching his hat, said: "Will you take my seat?"

For a moment she glared at him, and then, with schoolmastric precision of speech, she said: "In the first place it is not your seat."

He looked as guilty as if he had been caught in the act of stealing it, and actually cowed before her stern gaze.

"That seat," she went on, "is the property of the company that operates this road."

"That-a-t's so, ma'am," he faltered, coloring with embarrassment as he felt the eyes of his fellow-passengers upon him, "but will—you take it?"

"Where?" she shouted, in tragic tones. "Answer me that. Where shall I take it?"

He could not answer her query, and he looked as if he wished his parents had never released him. Her stern gaze never relaxed, nor did she make any attempt to accept his offer, but went on: "And even if I tried to take it, how could I?"

Looking like a fool, he slunk toward the door and, then, having made her clearly, she said, in a more pleasant manner:

"Young man, I'm a school-teacher, and I make my living at it, but I've given you a lesson in precision of expression that has cost you nothing. I won't take your seat, but I'll sit down."

"Madam," said he, as he slid the rear door open, "when I got up you sat down—on me."

And the woman, waving her hand, shut the door and left the woman to her questionable triumph.—N. Y. Journal.

Royal Wedding Cakes.

Royal wedding cakes are never sent out until they have matured for at least six months. The actual baking process lasts from five to seven hours. So great is the demand for cake on the occasion of a royal wedding, that the makers have always a stock of more than 3,000 pounds in the season room.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

Frederick N. Innes, who is to play one of the longest engagements at the Tennessee Centennial Exposition, is recognized as one of the greatest band masters in the world. For years he occupied the field alone as the greatest of all trombonists. Usually, his band is composed of fifty musicians, but the number may be varied from that to sixty-five, according to the character of the piece.

Edison's Grandest Invention.

Edison's grandest invention, "The Projectoscope," containing countless curious and puzzling mechanical phenomena will be given at Holland's Opera House three evenings of next week, beginning Monday, June 21.

A most interesting picture of a historical scene is McKinley taking the oath of office. It shows the multitude of people waving handkerchiefs, hats and flags to the new executive, who, with Chief Justice Fuller and other Government officials appears on the flag-decked Langford Stand erected in front of the National Capitol. A remarkable review of an enormous crowd on a rare occasion.

Other scenes are the Serpentine Dance, Umbrella Dance, Camel Parade, Interrupted Lovers, Irish Politics, Surf Scene, Lone Fisherman, American Falls, Canada Ship, Warming Hut, and Employes Leaving Factory, Swimming School, The Morning Alarm, Fighting The Fire, Cadet's Charge, Mounted Police Charge.

It is a perfect entertainment, surpassing in grandeur the wildest flight of the imagination and the people of Hopkinsville are indeed fortunate in having presented to them an opportunity to witness such an entertainment.

The "Black Diamond" Express.

This scene presents the famous Lehigh Valley "flyer" emerging from a wood in the distance and approaching the camera under full head of steam. A section gang in the fore ground, engaged in repairing track, wave their hats to the engineer, who is leaning out of the cab window. The snowy lines which the porter-wave from the platform of the dining car adds to the effect produced. The "Black Diamond" is undoubtedly the handsomest and one of the fastest trains in America, and the representation is the only one in existence showing an express train making seventy miles an hour.

At Opera House three nights, commencing Monday evening, June 21.

In an historical article recalling the destruction of our National capital by the British force in 1814, Clifford Howard in the July Ladies Home Journal will show that Dolly Madison, the most beloved and popular woman of her day, was courageous and fearless in the face of grave danger. In the mad stampede from Washington, that preceded the invasion by the British troops, Dolly Madison was the last to seek safety in flight, and her final act before quitting the White House, as the enemy advanced, was to seize the Declaration of Independence and carry it to her to a place of safety. As the White House was immediately afterward looted and burned by the British, Mr. Howard declares that but for brave Dolly Madison the priceless parchment would have been destroyed.

BERNHARDT TESTIFIES.

Declares Her Health Benefitted By Paine's Celery Compound.

The enthusiasm and the curiosity provoked by Mrs. Sarah Bernhardt has never been equalled in the history of the stage. One talks vaguely of genius, temperament, quick intelligence, passion, nervous mobility, grace, smile, voice, charm, poetry—Mrs. Bernhardt has them all.

Bernhardt is today as enthusiastic in her profession as though her career were before her. She works as assiduously during rehearsal as though each performance were her "last night."

No one is more conscientious in all matters pertaining to her life work. She knows the incalculable value of health, strength and high spirits as thoroughly as she comprehends the terms of her contracts, and no one knows better than she how essential to her artistic success is a vigorous nervous system.

Mrs. Bernhardt writes the following letter: "I beg leave to state that, according to your instructions, I have used Paine's Celery Compound, and I am convinced that it is the most powerful nerve strengthener that can be found."

"It is with the greatest pleasure that I send you my sincere testimony.

Truly yours, Sarah Bernhardt."

Good health is the wish of everyone, not only the wealthy and famous, but the poor as well, who will rely on Paine's Celery Compound.

Ill health and disease are not natural. One should not compromise with them. No one should give in to neurasthenia, rheumatism or heart trouble when Paine's Celery Compound is reached for to drive them entirely out of the system.

It increases the volume of the blood, in the arteries and makes it more capable of feeding the body. It creates a hearty appetite and urges upon the tired nerves and brain the nourishing elements they lack, but are slow to extract from the blood when it is in a sluggish, unhealthy condition.

The blood becomes ruddy and pure; its circulation is hastened, and every function of the body—the brain among the first—the fresh impulse of returning health from the use of Paine's Celery Compound.

There are no more striking examples of the great practical value of Paine's Celery Compound than is heard from the lips of women who have been made well by its vitalizing action.
